

E. 6th Avenue & Cherry Street

Traffic Calming Improvements

The Municipality of Anchorage (MOA) and their consultants, HDL Engineering Consultants, LLC (HDL), are designing traffic calming improvements for E. 6th Avenue (between State Street and North Valley Road/Valley Street) and Cherry Street (between 6th Avenue and 10th Avenue). MOA anticipates that the project will be constructed in summer 2021.

HDL will be presenting the project at the Northeast Community Council meeting on Thursday, March 18, 2021. For more information regarding the project, you are welcome to attend this meeting or visit the project website at:
